# 84th Annual Emmett Cherry Festival

JUNE 13-16, 2018

## Electrical Requirements

***THERE WILL BE NO EXCEPTIONS. If these rules are not followed you will be un-plugged immediately without notice.***

All cords must be identified at both ends as to the owner of the cord. Please mark with vendor name, and/or business name. Permanent marker is acceptable if legible.

All vendors paying for electricity will be given an identification tag. This tag must be applied to the male end of the cord where the connection to our service is made. Any cord that does not have this tag present will be unplugged. No sharing power between vendors and/or booths

All 120V extension cords must be a minimum of 14AWG. **No 16AWG cords will be allowed.**

All cords must be 3-wire, grounded, and rated for outdoor use. **No 2-wire cords will be permitted.**

All Cords and wiring must be free from damage. No exposed wires at plugs or connections will be allowed. Tape is not acceptable.

All 120V outdoor outlets are required to be GFCI protected.

All exposed cord terminations must be protected and arranged so they are not exposed to the elements or placed on the ground.

All 240V outlets are 50A 4-wire straight blade (range plug) and vendors using these outlets will be required to have #6 AWG cords. All connections will be plug connected.

All Vendors will need to be prepared for up to 125' in length for their respective cords.

**All fixtures are required to have guards installed over exposed light bulbs.** All light bulbs in food service areas must be completely covered by lenses or protective tubes. LED bulbs constructed of plastic do not require guards.

All metal light fixtures and metal parts are required to be grounded.

All cords in accessible areas must be arranged so as to not be a tripping hazard. All cords will need to be buried or covered with non-conductive rubber mats. Cord connections must not be buried or covered by matting. All vendors are responsible for burying their own cord and/or providing a mat to cover it. The event staff is not responsible for this.

Personal generators will not be allowed in any vendor areas.

All wiring within vendor tents and booths must be safe and in compliance with the National Electrical Code

Mackey Electric will have a qualified Electrician at the park during set-up to assist you.

If you have any questions relating to your electrical services, please do not hesitate to contact us by e-mail [mackeyelectric@msn.com](mailto:mackeyelectric@msn.com) or telephone 208-412-6796. Thank you in advance for your assistance.
